conaito Slideshow SDK – Easy and rapid creation of Flash® Slideshow's.
Powerful creation of Flash Slideshow's for your applications and Websites

The brand-new conaito Slideshow SDK (Software Developing Kit) provides you a smart and effective solution for converting PowerPoint slides and Images into an easy-to-use Online-Flash-Slideshows and professional Flash content authoring like Trade shows, Conferences, E-learning, Researching, Studies, E-cards, Fun content and many more!

The conaito Slideshow SDK is for application and website developers looking to add a Flash® Slideshow creation module to their application or websites. This SDK offers advanced easy to use photo Slideshow features such as automatic playback, audio enabled slideshows, automatic slide advancement, transition between slides, image processing features like rotate, resize and much more.

Key Features

The new Version 1.6 comes now with:

- **NEW in 1.6: Improved PowerPoint® 2010 support**
- **NEW in 1.6: All examples now also as VB.NET sources**
- **NEW in 1.6: New License Engine**

- Supports JPG, BMP, PNG, GIF, TIFF images, PPT and PPTX (PowerPoint Presentations) converting to Adobe Flash® Slideshows
- Convert PowerPoint® Presentations and Images file or folders in a single self-running Flash® Slideshow (SWF) or executable Player (EXE) without need a additional player
- Creating Slideshows from PowerPoint® (PPT and PPTX)
- Loop background sound option
- Preloader option
- Convert SWF-to-EXE and reverse for convert EXE-to-SWF
- More than 40 "ready-to-use" slide transition effects
- Background color and image support
- Supports background music soundtrack (mp3) for generated slideshow movies
- Navigation bar support (optional embedded into SWF – prev/next slide/pause/play buttons) with extended positioning
- Image processing functions like resize and rotate with size support
- In-memory file generation support for use in ASP.NET
- Cross-Platform and Browser Playback
- Fully commented sample applications for various programming languages
- Sample source code for C#, VB.NET and ASP.NET
- .NET framework as well as COM support
- **Royalty-free distribution** along with your product/application

… and much more!

The converted Flash Slideshows works provides all the advantages of a Flash file (already available in 98% of all Web browsers):

- Easy online-distribution or CD
- Greater Accessibility
- Extensive Compatibility
- Low file size
- Resolution friendly
- A safety and tamper proof format
- Streaming technology
- Viewing with or without Player

Potential applications of conaito Slideshow SDK:

- Online Collaboration. Applications for online sharing of Slideshows.
- Web-based Authoring Tool.
- Learning Management Systems (LMS)
- Web Seminar. Application for slideshows (converted to Flash®).
- Desktop applications, say authoring tools.
- Web server, say presentation server platforms.
- And much more!

Please, don't hesitate trying our Slideshow SDK at once and get yourself, as well as your customers, the exciting experience of easy, fast and high quality standard applications which can convert PowerPoint® presentations and Images into Flash Slideshows.

Conaito Slideshow SDK is written in Microsoft .NET and provides the documentation, samples and related libraries you need to integrate with other applications or systems. The applications you develop with this edition of the SDK can run on.

The contents of conaito Slideshow SDK and the supported development environments include:

The conaito Slideshow SDK runs on Windows and also includes a .NET interface that can be used in any .NET programming language like C# or VB.NET. You can use it with your web applications developed in ASP.NET as well. Conaito Slideshow SDK also includes a COM interface that can be used from any programming language that supports COM automation, like C++, Visual Basic, Delphi, ASP, PHP, JavaScript, VBScript, etc.

The contents of conaito Slideshow SDK and the supported development environments include all of the necessary software components for building systems based on conaito Slideshow SDK including documented operational software applications and examples (with source code), explanations as well as necessary service programs, libraries and components.

The supported development environments include:

- Visual Basic .NET
- Visual C++ .NET
- Visual C# .NET
- ASP.NET
- ASP, JSP, PHP (COM)
- JavaScript/HTML (COM)
- Visual Basic (COM)
- Visual C++ (COM)
- Borland Delphi (COM)
- and all development environments with COM and .NET framework support

End user system requirements:

- A web browser and the Flash player.

We hope you enjoy the new conaito Slideshow SDK – A simple way to create powerful Flash Slideshow's for your applications and Websites.
