conaito XPS2Image SDK – Easy and rapid XPS to Image and Slideshow's converting for your applications and Websites

The brand-new conaito XPS2Image SDK (Software Developing Kit) provides you a smart and effective solution for converting XPS (Microsoft® XML Paper Specification) into Images and easy-to-use Online-Flash-Slideshows for professional Flash® content authoring like Trade shows, Conferences, E-learning, Researching, Studies, E-cards, Fun content and many more!

The conaito XPS2Image SDK is for developers looking to add a XPS to Image or to Flash® Slideshow converting module to their application or websites. This SDK offers advanced easy to use converting features such as different Image output formats, Image quality settings, Slideshows with ready-to-use player and xml creation.

Microsoft® XML Paper Specification (XPS) files are XML documents like PDF optimized for printing purpose. XPS documents has information for the layout, appearance, and printing information for a document. Unfortunately XPS documents can only opened on Windows® operating system.

Windows® Vista® has built-in XPS viewer but Windows® XP users have to download XPS essential pack to view XPS files. Here is alternate way to open XPS files is by converting XPS files into JPEG, PNG or GIF format using conaito XPS2Image SDK.

Key Features - Here is a list of the main features of the conaito XPS2Image SDK:

- Supports XPS (Microsoft® XML Paper Specification) converting to JPEG, PNG, GIF and Slideshows with ready-to-use player
- Image qualities supported: Low, Normal and Highly
- Slideshow´s with Cross-Platform and Browser Playback
- Fully commented sample applications for various programming languages
- Sample source code for C# and ASP.NET
- .NET framework as well as COM support
- **Royalty-free distribution** along with your product/application

Potential applications of conaito XPS2Image SDK:

- Online Collaboration. Applications for online sharing of Images and Slideshows.
- Web-based Authoring Tool.
- Learning Management Systems (LMS)
- Web Seminar. Application for slideshows (converted to Images).
- Desktop applications, say authoring tools.
- Web server, say presentation server platforms.
- And much more!

Please, don't hesitate trying our XPS2Image SDK at once and get yourself, as well as your customers, the exciting experience of easy, fast and high quality standard applications which can convert XPS documents to Images and Slideshows.

Conaito XPS2Image SDK is written in Microsoft .NET and provides the documentation, samples and related libraries you need to integrate with other applications or systems. The applications you develop with this edition of the SDK can run on Windows 2000, Windows XP, Windows 2003 and Windows Vista.

The contents of conaito XPS2Image SDK and the supported development environments include:

The conaito XPS2Image SDK runs on Windows and also includes a .NET interface that can be used in any .NET programming language like C# or VB.NET. You can use it with your web applications developed in ASP.NET as well. Conaito XPS2Image SDK also includes a COM interface (TLB) that can be used from any programming language that supports COM automation, like C++, Visual Basic, Delphi, ASP, PHP, JavaScript, VBScript, etc.

The contents of conaito XPS2Image SDK and the supported development environments include all of the necessary software components for building systems based on conaito XPS2Image SDK including documented operational software applications and examples (with source code), explanations as well as necessary service programs, libraries and components.

The supported development environments include:

- Visual Basic .NET
- Visual C++ .NET
- Visual C# .NET
- ASP.NET
- ASP, JSP, PHP (COM)
- JavaScript/HTML (COM)
- Visual Basic (COM)
- Visual C++ (COM)
- Borland Delphi (COM)
- and all development environments with COM and .NET framework support

End user system requirements:

- For Slideshows - A web browser and the Adobe Flash® player.

We hope you enjoy the new conaito XPS2Image SDK – A simple way to converts XPS to Images and Slideshow´s with excellent quality for your applications and Websites.
